PROFILE

Results-driven UI/UX Designer and Front-End Developer with a strong focus on creating intuitive, accessible, and user-centered digital experiences. Experienced in designing end-to-end user flows, wireframes, and high-fidelity prototypes, and translating design concepts into responsive interfaces.

EXPERIENCE

Dfine Digital solutions Kottakal- Intern -2026

- Designed responsive website layouts and prototypes using Figma.
- Created wireframes and high-fidelity UI designs based on client requirements.
- Developed responsive pages using HTML, CSS, Javascript,and Bootstrap.

PROJECTS

Ration Distribution App — UI/UX Case Study

- Designed the delivery and stakeholder flow to support elderly users, people with disabilities, and family members living abroad, allowing ration orders to be placed and tracked on their behalf
- Designed a mobile app to help citizens view their ration card details, entitlements, and monthly stock in one place
- Created user flows to simplify how families check eligibility (APL/BPL) and ration balance
- Designed wireframes and high-fidelity UI screens for login, home, profile, and notifications
- Improved information clarity using card-based layouts and visual hierarchy
- Added language selection (English & Malayalam) to support regional users
- Designed admin flow for ration shop owners to manage and verify deliveries
- Built an interactive prototype in Figma to demonstrate the end-to-end user experience
